## DESCRIPTION

The most attractive and exclusive Ducati Streetfighter ever produced is a motorcycle that perfectly embodies the values of extreme performance, sporting character and exclusivity shared by Ducati and Lamborghini, two brands of excellence that have contributed to writing the history of Motor Valley and that, with this project, renew and evolve their collaboration.

Only 630 units in Verde Citrea / Arancio Dac.

The heart of the Ducati Streetfighter V4 Lamborghini is the Desmosedici Stradale 1103 cc engine with a power output of 208 hp (Euro 5 homologation), characterized by the counter-rotating crankshaft, desmodromic distribution with four valves per cylinder and TwinPulse ignition order, derived from MotoGP. In the Ducati Streetfighter V4 Lamborghini the engine is characterized by having a dry clutch, as in Ducati MotoGP and Superbike motorcycles.

The Front Frame aluminium chassis uses the engine as a load-bearing element. The suspensions are semi-active Öhlins Smart EC 2.0 units, while the Brembo braking system features Stylema calipers and 330 mm discs. The aerodynamic package, based on biplane carbon wings integrated into the fuel tank side covers, stabilize the motorcycle at high speeds, without compromising agility and handling. The kerb weight is 197.5 kg.

Possibility to finance up to 60 months with or without down payment.
